PROFILE

Computer Science student at Kent State University. Fullstack Developer with experience in a wide range of technologies and designing and deploying webapps. Creating scalable real world solutions to everyday problems ranging from education to entertainment.

SKILLS

Languages: C++, Python, Javascript, HTML, CSS

Backend: Express.js, Node.js

Frontend: React, Next.js, Svelte, BEM CSS, Tailwind CSS

Databases: PostgreSQL PowerBI

PROJECTS

SteamSpective | ReactJS, NodeJS

- Designed SteamSpective, a “higher or lower” style guessing game using real time data from the Steam web API.
- Leveraged ReactJS and BEM style CSS to create a custom interactive Frontend, displaying fetched user and game data.
- Made use of NodeJS to fetch data in real time from the Steam web API.

Mealprep Assistant App | Svelte, PostgreSQL

- Currently developing a Svelte based meal preparation app to track recipes, ingredients, and automate meal planning.
- Leveraging PostgreSQL for data storage and the Svelte framework for frontend development.

EXPERIENCE

Data and Technology Operations Intern

Nov 2025 – Present

All Around Children Child Care

Bedford Heights, OH

- Developed a corporate data management application to streamline business operations, detect anomalies in payment and attendance data, and evaluate business performance to identify growth opportunities. Also aggregated relevant business data for management overview to better align company goals and keep up to date information on clients.
- Created with a ReactJS Frontend and a Supabase powered PostgreSQL database for persistent storage.
- Application currently used across 6 child care centers in North East Ohio, improving operational flow and business decision making.

Customer Service Associate

Feb 2023 – Present

Heinen's Grocery Store

Hudson, OH

- Coordinated management of front-end operations, delegating tasks across a team and improving overall workflow. Often lead a team unassisted from upper management.
- Focus on excellent customer engagements, ensuring patrons always left properly assisted and satisfied.
- Honed skills in customer engagement, team management, and handling stressful independent workloads.

Team Member

Oct 2022 – Jan 2023

BE Smoothie

Willowick, OH

EDUCATION

Kent State University

GPA: 3.4, Kent, OH

Bachelor of Sciences, Computer Science

Aug 2024 – May 2027

Relevant Coursework

- Operating Systems, Computer Organization, CSII: Data Structures, CS I: Procedural Programming

Enrolled in

- Computer Communication Networks, Database System Design, CSIII: Programming Patterns, Human Interface Computing

ACHIEVEMENTS

Kent Hack It CTF | Oct 2025

The first Capture the Flag hosted by HacKSU. 2nd overall, 1st individual
